What is this product?

Type

The Fund is an investment company with variable capital. The Fund's value is dependent on the performance of the underlying assets and may go up as well as down. Any capital invested in the Fund may be at risk.

Objectives and Investment Policy

Investment Objective:

The Fund aims to provide security of capital, daily liquidity and an investment return that is similar to US Dollar denominated money markets interest rates while considering select environmental, social and governance (ESG) criteria. The Fund is classified as an Article 8 Fund under SFDR.

Investment Policy:

The Fund invests in a diversified portfolio of short-term securities, instruments, and obligations. These instruments are of high quality at the time of purchase and are eligible for investment under the Money Market Fund Regulation with an additional focus on the performance of the underlying issuers on a range of ESG metrics.

The Fund invests in short-term fixed or floating-rate securities that mature in 397 days or less. They will be issued by companies, governments, and government-related entities and either listed or traded on a Recognised Market, as detailed in the Prospectus.

The weighted average portfolio maturity of the Fund will not exceed 60 days and the weighted average portfolio life of the Fund will not exceed 120 days.

The Fund's investments will, at the time of purchase, typically have a credit rating of least A-1 or P-1 (or its equivalent) from a recognised credit rating agency, such as Standard & Poor's or Moody's.

The Fund may only invest in securities that are denominated in (or hedged back into) US dollars.

The Fund can invest in a range of short-term securities, instruments, and obligations such as, but not limited to: certificates of deposit (short-term certificates issued by banks); medium term, variable and floating rate notes; commercial paper; bankers acceptances; government bonds, corporate bonds, Eurobonds, and treasury bills; and asset backed securities.

The Fund may invest in reverse repurchase agreements.

Although the Fund does not have a specific sustainable investment objective, the Investment Manager shall promote environmental and social characteristics, and invest in issuers following good governance practices.

The Investment Manager shall seek to identify issuers that are considered to be better at addressing ESG risks than other issuers in the investable universe. The Investment Manager will assign an ESG score to each approved issuer in the Fund's investable universe. A combination of screens such as relative ESG scores, adherence to the United Nations Global Compact and sector specific screens will be used to screen the Fund's theoretical investable universe of issuers to create the 'best in class' investable universe of issuers. Issuers considered for inclusion within the Fund's portfolio will be subject to excluded activities in accordance with HSBC Asset Management's Responsible Investment Policies.

Please refer to the prospectus for more details on ESG scores, issuer screening and engagement, and excluded activities.

The Fund may also invest in financial derivative instruments and may use them for hedging purposes.

Intended Retail Investor

The Fund is designed for investors seeking security of capital and daily liquidity together with an investment return comparable to normal money market interest rates. The Fund is available to investors such as corporations, banks, broker dealers, custodians/depositaries, fund managers, pension funds, charities, local authorities and other institutions that seek investment of short-term funds for their own accounts or for the accounts of their customers. An investment in the Fund is only suitable for investors who are capable of evaluating the risks and merits of such an investment, and who have sufficient resources to bear any loss as the Fund is not guaranteed and they may receive back less than the amount invested. The Fund is designed for use as part of a diversified investment portfolio. Prospective investors should consult with their financial advisor before making an investment.

Term:

The Fund does not have a maturity date.

The PRIIP Manufacturer cannot terminate the Fund unilaterally. The Board of Directors may furthermore decide to liquidate the Fund in certain circumstances set out in the prospectus and articles of incorporation of the Fund.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. The unfavourable scenario occurred for an investment between January 2015 and January 2015. The moderate scenario occurred for an investment between December 2017 and December 2017. The favourable scenario occurred for an investment between December 2023 and December 2023. A suitable benchmark was used where the Fund had insufficient history.

What happens if HSBC Investment Funds (Luxembourg) S.A. is unable to pay out?

The Fund's ability to pay out would not be affected by the default of HSBC Investment Funds (Luxembourg) S.A.. The Fund's assets are kept safe by the Depositary and are segregated from the assets of other Funds. This means that the holdings of one Fund are kept separate from the holdings of the other Funds and your investment in the Fund cannot be used to pay the liabilities of any other Fund. There is a potential liability risk for the Depositary if the assets of the Fund are lost. The Depositary is liable in case of its negligent or intentional failure to properly fulfil its obligations.

In the event of a bankruptcy or insolvency of the Depositary or other service provider, investors could experience delays (for example, delays in the processing of subscriptions, conversions and redemption of shares) or other disruptions and there may be a risk of default. The Fund is not covered by an investor compensation or guarantee scheme.
