# be at risk. Objectives and Investment Policy

#### Investment Objective:

The Fund aims to provide capital growth and income during the term of the Fund.

The Fund is an Irish collective asset-management vehicle ("ICAV"). The

Fund's value is dependent on the performance of the underlying assets

and may go up as well as down. Any capital invested in the Fund may

#### **Investment Policy:**

The Fund will invest a minimum of 70% of its assets in fixed and/or floating rate bonds issued by corporate issuers in developed markets. The Fund may invest up to 20% of its assets in bonds of corporate issuers rated non-investment grade and/or unrated bonds at the time of purchase. The Fund may invest up to 20% of assets in bonds which are issued or guaranteed by governments, government agencies and supranational bodies in developed markets. The Fund may invest in cash, cash equivalents, other short-term debt instruments and the units or shares of money market funds for liquidity purposes.

The Fund will invest in bonds with a final maturity date which expected to end on or around 30 June 2028 (the "Term Date"). However, the Fund may hold bonds beyond the term date in certain circumstances. Please refer to the Supplement for more details on the term of the Fund.

In the 12 months prior to the Term Date, as the bonds mature, the proceeds of the Fund's portfolio will not be reinvested and the portfolio may hold up to 100% of its assets in cash, cash equivalents, other short-term debt instruments and the units or shares of money market funds

The Fund invests in bonds with the intention of holding them to maturity. However, the investment manager will actively monitor the portfolio and has discretion to sell the bonds that it believes will suffer a deterioration in credit quality over time or purchase bonds that it believes will provide better investment returns.

The Fund is an Article 6 SFDR fund. The Investment Manager applies a responsible investment policy (as defined in the Prospectus) which focuses on the 10 principles of the UNGC in the areas of human rights, labour, environment, and anti-corruption.

The Fund may invest up to 10% of its assets in other funds.

The Fund may hold shares (and securities similar to shares) received as a result of or in connection with a corporate action affecting existing portfolio holdings.

#### Intended Retail Investor

Designed for investors with a focus on income and planning to invest until the Fund's maturity date.

An investment in the Fund is only suitable for investors who are capable of evaluating the risks and merits of such an investment, and who have sufficient resources to bear any loss as the Fund is not guaranteed and they may receive back less than the amount invested. The Fund is designed for use as part of a diversified investment portfolio. Prospective investors should consult with their financial advisor before making an investment.

# Term:

The Fund is designed to be held until the Term date: 30 June 2028 The PRIIP Manufacturer cannot terminate the Fund unilaterally. The Board of Directors may furthermore decide to liquidate the Fund in certain circumstances set out in the prospectus and articles of incorporation of the Fund.

# Additional Information:

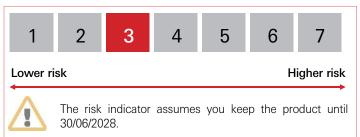

This document describes a single share class of a sub-fund of the UCITS. Further information about the UCITS including the Prospectus, the most recent annual and semi-annual reports of the UCITS and the latest prices of shares, may be obtained free of charge, in English, from the Administrator by emailing ifsinvestorqueries@hsbc.com, or by visiting www.global.assetmanagement.hsbc.com. The most recent Prospectus is available in English and French. The Prospectus, annual and semi-annual reports are prepared for the entire UCITS.

The Depositary is HSBC Continental Europe. The Fund's assets are kept safe by the Depositary and are segregated from the assets of other Funds.

It is possible to switch your shares into shares of a different share class or sub-fund within the ICAV. Details of how to do this are in the "How to convert between sub-funds / Classes" section of the Prospectus.

# What are the risks and what could I get in return?

#### Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low, and poor market conditions are unlikely to impact our capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Additional risks not included in the Summary Risk Indicator (SRI) include: Liquidity, Counterparty, Operational, Investment Leverage and Exchange Rate Risk. Please refer to the prospectus for other risks.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

#### **Performance Scenarios**

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended Holding Period: 4 Years Investment of USD 10,000		If you exit after 1 year	If you exit after 4 years
Minimum	The Fund is not covered by an investor compensation or guarantee scheme, you may lose some or all of the amount invested.		
Stress Scenario	What you might get back after costs	USD7,560	USD7,340
	Average return each year	-24.42 %	-7.44 %
Unfavourable Scenario	What you might get back after costs	USD8,460	USD8,460
	Average return each year	-15.44 %	-4.10 %
Moderate Scenario	What you might get back after costs	USD9,780	USD10,730
	Average return each year	-2.19 %	1.78 %
Favourable Scenario	What you might get back after costs	USD11,400	USD12,130
	Average return each year	14.05 %	4.94 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. The unfavourable scenario occurred for an investment between April 2024. The moderate scenario occurred for an investment between April 2018 and April 2022. The favourable scenario occurred for an investment between December 2016 and December 2020. A suitable benchmark was used where the Fund had insufficient history.

# What happens if HSBC Investment Funds (Luxembourg) S.A. is unable to pay out?

The Fund's ability to pay out would not be affected by the default of HSBC Investment Funds (Luxembourg) S.A.. The Fund's assets are kept safe by the Depositary and are segregated from the assets of other Funds. This means that the holdings of one Fund are kept separate from the holdings of the other Funds and your investment in the Fund cannot be used to pay the liabilities of any other Fund. There is a potential liability risk for the Depositary if the assets of the Fund are lost. The Depositary is liable in case of its negligent or intentional failure to properly fulfil its obligations. In the event of a bankruptcy or insolvency of the Depositary or other service provider, investors could experience delays (for example, delays in the processing of subscriptions, conversions and redemption of shares) or other disruptions and there may be a risk of default. The Fund is not covered by an investor compensation or guarantee scheme.

# What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

#### Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- ◆ USD 10,000 is invested.

Recommended Holding Period: 4 Years Investment of USD 10,000	If you exit after 1 year	If you exit after 4 years
Total Costs	381 USD	661 USD
Annual cost impact % *	3.8%	1.5% each year

<sup>\*</sup> This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.32% before costs and 1.78% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount

These figures include the maximum distribution fee that the person selling you the product may charge up to 3.10%. This person will inform you of the actual distribution fee.
