# HSBC FTSE EPRA NAREIT DEVELOPED CLIMATE PARIS ALIGNED UCITS ETF

Marketing communication | Monthly report 31 May 2025 | HPES LN | USD (Dist)

## Investment objective

The Fund aims to track as closely as possible the returns of the FTSE EPRA Nareit Developed Green EU PAB Index (the Index), while integrating environmental, social and governance (ESG) metrics. The Fund will invest in or gain exposure to shares of companies which make up the Index. The Fund qualifies under Article 8 of SFDR.

## Investment strategy

The Index is subset of the FTSE EPRA Nareit Global Developed Index (the Parent Index) and follows the FTSE EPRA Nareit Green Index Series ground rules. The Index is designed to support investors seeking to reduce their exposure to transition and physical climate risks, and who wish to pursue opportunities arising from the transition to a lower carbon economy. At each index review date, companies with specific activities and conduct are excluded from the eligible universe.

The Fund is passively managed and aims to invest in the shares of the companies in generally the same proportion as in the Index.

The Fund may invest up to 35% of its assets in securities from a single issuer during exceptional market conditions, up to 10% of its assets in total return swaps and contracts for difference, and up to 10% of its assets in other funds.

See the Prospectus for a full description of the investment objectives and derivative usage.
