

## HSBC ETFs PLC

# HSBC FTSE EPRA NAREIT DEVELOPED ISLAMIC UCITS ETF

Marketing communication | Monthly report 30 June 2025 | HINS LN | USD (Acc)

## Investment objective

The Fund aims to track as closely as possible the returns of the FTSE EPRA Nareit IdealRatings Developed Islamic Index (the Index).

## Investment strategy

The Index is a subset of the FTSE EPRA Nareit Developed Index (Parent Index), and includes REITs and Real Estate Holding and Developing companies in developed markets, that comply with Shariah investment principles, as defined by the Index Provider.

The Index is constructed by applying Business Activities and Financial Screening according to the FTSE IdealRatings Islamic Indexes Screening Guide to the Parent Index. By applying Business Activities Screening, for example, investment will not be permitted in companies deriving more than 5% of their total revenue, or in REITs that generate income, through tenants operating in any of the specified business activities; such as, defense or weapons, alcohol or pork-related products.

The Fund will be passively managed and will aim to invest in the shares of the companies in generally the same proportion as in the Index.

The Shariah committee monitors the Fund periodically and issues an annual Shariah certificate on the Fund's compliance with Shariah principles.

The Fund may invest up to 35% of its assets in securities from a single issuer during exceptional market conditions.

See the Prospectus for a full description of the investment objectives and derivative usage."
