

**HSBC ETFs PLC**

# HSBC MSCI WORLD UCITS ETF

Marketing communication | Monthly report 31 July 2025 | HMWS LN | USD (Acc)

## Investment objective

The Fund aims to track as closely as possible the returns of the MSCI World Index (the "Index"). The Fund will invest in or gain exposure to shares of companies which make up the Index.

## Investment strategy

The Index is made up of large and mid-cap companies of the world's developed countries, as determined by the Index provider. The Fund will be passively managed and will utilise an investment technique called optimisation. This technique seeks to minimise the difference in return between the Fund and the Index by taking into account tracking error and trading costs when constructing a portfolio. The Fund will not necessarily invest in every company that comprises the Index, or invest proportionally to each company's weight in the Index. It can also invest in companies outside the Index but which are expected to provide similar performance and risk characteristics to certain Index constituents. If the Fund cannot invest directly in the companies, it may gain exposure by using other investments such as depositary receipts or derivatives. The Fund may invest up to 10% in total return swaps and contracts for difference. The Fund may invest up to 10% in other funds, including HSBC funds. See the Prospectus for a full description of the investment objectives and derivative usage.

## Main risks

- The Fund's unit value can go up as well as down, and any capital invested in the Fund may be at risk.
- The value of investible securities can change over time due to a wide variety of factors, including but not limited to: political and economic news, government policy, changes in demographics, cultures and populations, natural or human-caused disasters etc.
- To the extent that the Fund seeks to replicate index performance by holding individual securities, there is no guarantee that its composition or performance will exactly match that of the target index at any given time ("tracking error").

## Risk Disclosure

- Derivatives may be used by the Fund, and these can behave unexpectedly. The pricing and volatility of many derivatives may diverge from strictly reflecting the pricing or volatility of their underlying reference(s), instrument or asset.
- Investment Leverage occurs when the economic exposure is greater than the amount invested, such as when derivatives are used. A Fund that employs leverage may experience greater gains and/or losses due to the amplification effect from a movement in the price of the reference source.
- Where overseas investments are held the rate of currency exchange may cause the value of such investments to go down as well as up.
- Further information on the potential risks can be found in the Key Information Document (KID) and/or the Prospectus or Offering Memorandum.

The fund is a sub-fund of HSBC ETFs plc ("the Company"), an investment company with variable capital and segregated liability between sub-funds, incorporated in Ireland as a public limited company, and is authorised by the Central Bank of Ireland. The company is constituted as an umbrella fund, with segregated liability between sub-funds. Shares purchased on the secondary market cannot usually be sold directly back to the Company.

Investors must buy and sell shares on the secondary market with the assistance of an intermediary (e.g. a stockbroker) and may incur fees for doing so. In addition, investors may pay more than the current Net Asset Value per share when buying shares and may receive less than the current Net Asset Value per Share when selling them. Affiliated companies of HSBC Global Asset Management (UK) Limited may make markets in HSBC ETFs plc. UK based investors are advised they may not be afforded some of the protections conveyed by the Financial Services and Markets Act (2000), (the Act). The Company is recognised in the UK by the Financial Conduct Authority under section 264 of the Act. The shares in the company have not been and will not be offered for sale or sold in the United States of America, its territories or possessions and all areas subject to its jurisdiction, or to United States Persons. Investors and potential investors should read and note the risk warnings in the prospectus, relevant KID and Fund supplement (where available) and additionally, in the case of retail clients, the information contained in the supporting SID.

Further information about the Company including the Prospectus, the most recent annual and semi-annual reports of the Company and the latest share prices, may be obtained free of charge, in English, from the Administrator by emailing [ifsinvestorqueries@hsbc.com](mailto:ifsinvestorqueries@hsbc.com), or by visiting [www.etf.hsbc.com](http://www.etf.hsbc.com). Details of the underlying investments of the fund are available on [www.etf.hsbc.com](http://www.etf.hsbc.com). The indicative intra-day net asset value of the fund is available on at least one major market data vendor terminal such as Bloomberg, as well as on a wide range of websites that display stock market data, including [www.reuters.com](http://www.reuters.com).

The most recent Prospectus is available in English, German and French. Key Information Document (PRIIPs KID) are available in the local language where they are registered.
