This notice contains important information about your investment in one or more of the funds listed in Appendix 1 (the “Funds”) of the Company.

Capitalised terms used in this notice and not defined shall have the meaning given to those terms in the Prospectus.

25 February 2025

Dear shareholder,

As a shareholder in one or more of the Funds, we are writing to inform you of some forthcoming changes impacting them.

What are the changes?

The changes we are making are explained in sections 1 – 4 below. In each section we explain which Funds are affected by the changes. Some Funds may be subject to more than one change.

1. Introduction of new fund naming guidelines

The European Securities and Markets Authority (ESMA) has issued new guidelines that apply to funds whose names contain environmental-related terms (e.g. ESG) or sustainability-related terms (e.g. Sustainable) (the “ESMA Guidelines”). The ESMA Guidelines are intended to enhance investor protection where funds have names that suggest they meet certain sustainability standards. They will apply to the Funds with effect from 21 May 2025.

The ESMA Guidelines require that for a fund to use an environmental-related term in its name, the relevant fund must:

- (i) invest at least 80% of its assets to meet the environmental and social characteristics promoted by the fund; and
- (ii) apply the exclusions set out in Article 12(1)(a) to (g) of the Commission Delegated Regulation (EU) 2020/1818. These are the minimum standards that apply to EU Paris-Aligned Benchmarks (the “PAB Exclusions”). See Appendix 2 for more details on the PAB Exclusions.

Furthermore, for a fund to use a sustainability related term it must, in addition to meeting the requirements at (i) and (ii) above, also:

- (iii) commit to investing meaningfully (i.e it must invest at least 50% of its assets) in sustainable investments referred to in Article 2(17) of the SFDR (“Sustainable Finance Disclosure Regulation”).

Registered in Ireland as an open ended umbrella fund, with segregated liability between sub funds.

PUBLIC

The introduction of the ESMA Guidelines means that we are required to make changes to the names of the Funds. The changes to be made will vary depending on whether a Fund currently uses an environmental-related term (i.e. ESG) or a sustainability-related term (i.e. sustainable).

Changes to Funds currently using ‘ESG’ in their name

The Funds listed in Table A below currently use the term ‘ESG’ in their name. Since the ESMA Guidelines consider ‘ESG’ to be an environmental-related term, the Funds will need to meet the requirements set out at both (i) and (ii) above to continue using ‘ESG’ in their names. As the objective of each of the Funds in Table A is to track an index which does not incorporate PAB Exclusions, the Funds in Table A will be unable to comply with the ESMA Guidelines. We will therefore be renaming the Funds, as set out below, to replace ‘ESG’ with ‘Screened’. ‘Screened’ has been selected as a term in the New Fund Name to denote that the securities are subject to specific ESG related and/or other screens including, but not limited to, applying certain exclusionary criteria as defined in the index methodology.

Table A

| Current Fund Name | New Fund Name |
|--|---|
| HSBC MSCI EMERGING MARKETS ISLAMIC ESG UCITS ETF | HSBC MSCI EMERGING MARKETS ISLAMIC SCREENED CAPPED UCITS ETF* |
| HSBC MSCI EMERGING MARKETS SMALL CAP ESG UCITS ETF | HSBC MSCI EMERGING MARKETS SMALL CAP SCREENED UCITS ETF |
| HSBC MSCI EMERGING MARKETS VALUE ESG UCITS ETF | HSBC MSCI EMERGING MARKETS VALUE SCREENED UCITS ETF |
| HSBC MSCI EUROPE ISLAMIC ESG UCITS ETF | HSBC MSCI EUROPE ISLAMIC SCREENED UCITS ETF |
| HSBC MSCI JAPAN ISLAMIC ESG UCITS ETF | HSBC MSCI JAPAN ISLAMIC SCREENED UCITS ETF |
| HSBC MSCI USA ISLAMIC ESG UCITS ETF | HSBC MSCI USA ISLAMIC SCREENED UCITS ETF |
| HSBC MSCI WORLD ISLAMIC ESG UCITS ETF | HSBC MSCI WORLD ISLAMIC SCREENED UCITS ETF |
| HSBC MSCI WORLD SMALL CAP ESG UCITS ETF | HSBC MSCI WORLD SMALL CAP SCREENED UCITS ETF |
| HSBC MSCI WORLD VALUE ESG UCITS ETF | HSBC MSCI WORLD VALUE SCREENED UCITS ETF |

* The new fund name will also include the term ‘Capped’ in its name to align with the investment objective of the Fund to replicate the performance of a capped index. The intention to update the Fund name to reflect this was notified to shareholders on 4 November 2024.

Changes to Funds currently using ‘Sustainable’ in their name

The Funds listed in Table B below currently use the term ‘Sustainable’ in their name. Since the ESMA Guidelines consider ‘Sustainable’ to be a sustainability-related term, the Funds will need to meet the requirements set out at (i), (ii) and (iii) above. As the objective of each of the Funds in Table B is to track an index that does not incorporate PAB Exclusions, they are unable to comply with (ii). Furthermore, these Funds do not, and are not intending to, commit to invest meaningfully in sustainable investments so they are also unable to meet the requirements set out in (iii) above. Therefore, to comply with the ESMA Guidelines, we will be renaming these Funds as set out below to replace ‘Sustainable’ with ‘Screened’. Once again, ‘Screened’ has been selected as a term in the New Fund Name to denote that the securities are subject to specific ESG related and/or other screens including, but not limited to, applying certain exclusionary criteria as defined in the index methodology.

Table B

| Current Fund Name | New Fund Name |

The Fund listed in Table C below also uses the term ‘Sustainable’ in its name. However, while this Fund and its index meets the requirements set out in (i) and (ii) above, the Fund does not, and is not intending to, commit to invest meaningfully in sustainable investments and so it is unable to meet the requirements set out in (iii) above. Therefore, to comply with the ESMA Guidelines we will be renaming the Fund in Table C as set out below.

2. Changes to Index Names

MSCI is the index provider in relation to the Funds referred to in Table D below. Following consultation, MSCI has changed the name of the indices as shown in the table. The Index name changes took effect on 3 February 2025.

3. Index methodology changes

Following the introduction of the ESMA Guidelines some index providers made the decision to change their index methodologies to incorporate PAB Exclusions meaning that their indices comply with the ESMA Guidelines. This has enabled the Funds set out in Table E below to either retain or move to the new fund names as detailed above.

We will be updating the “Index Description” section of each relevant Supplement to reflect these additional exclusions which have not resulted in any material change to these Funds.

Table E

| Current Fund Name | New Fund Name | Index | Index Provider | Effective Date |
|---|---|--|----------------|-----------------|
| HSBC BLOOMBERG GLOBAL SUSTAINABLE AGGREGATE 1-3 YEAR BOND UCITS ETF | HSBC BLOOMBERG GLOBAL ESG AGGREGATE 1-3 YEAR BOND UCITS ETF | Bloomberg MSCI Global Aggregate 1-3 Year SRI Carbon ESG-Weighted Index | Bloomberg LP | [February 2025] |
| HSBC NASDAQ GLOBAL CLIMATE TECH UCITS ETF | No change | NASDAQ CTA Global Climate Technology Index | NASDAQ | [December 2024] |

4. SFDR pre-contractual disclosure annexes – minimum commitment changes and other enhancements

We are also making changes to the minimum commitments set out in the SFDR pre-contractual disclosure annexes (the “**SFDR Annexes**”). This will affect the Funds listed in Table F and Table G below.

- a) Investments that promote environmental and/or social characteristics (“**E/S Characteristics**”)

As Article 8 funds under SFDR, the Funds listed in Table F commit that a minimum proportion of their net assets will promote E/S Characteristics. These minimum commitments were based on estimates at the time of the Funds’ approval by the Central Bank of Ireland however, since these Fund were launched, the actual level of investments promoting E/S Characteristics for these Funds has been very close to the minimum commitments. We believe there should be an appropriate space between the minimum commitment levels and the actual levels to ensure that the minimum commitment levels can be maintained over time. For the Funds listed Table F we are therefore, adjusting the minimum commitment to E/S Characteristics as shown.

Table F

| Fund | Minimum E/S Characteristics in SFDR Annex | |
|---|---|-----------------|
| | Current minimum | Revised minimum |
| HSBC FTSE EPRA NAREIT DEVELOPED CLIMATE PARIS ALIGNED UCITS ETF | 98.27% | 80% |

| | | |
|---|-------|-----|
| HSBC MSCI JAPAN ISLAMIC ESG UCITS ETF | 100% | 80% |
| HSBC NASDAQ GLOBAL CLIMATE TECH UCITS ETF | 99.7% | 80% |

b) Sustainable Investments of the Funds (“**Sustainable Investments**”)

Article 8 funds under SFDR often commit that a minimum proportion of investments which promote E/S Characteristics will be in Sustainable Investments, as defined in Article 2(17) of the SFDR. The Fund listed in Table G below, currently commits to invest the minimum proportion in Sustainable Investments as shown in the table. However, while actual level of Sustainable Investments have been above the current minimum since the Fund was launched, we believe it is prudent to revise the stated minimum commitment as shown in Table G to ensure that the minimum commitment level can be maintained.

Table G

| Fund | Minimum Sustainable Investments in SFDR Annex | |
|---|---|-----------------|
| | Current minimum | Revised minimum |
| HSBC NASDAQ GLOBAL CLIMATE TECH UCITS ETF | 81.2% | 50% |

c) Other enhancements

We are updating the SFDR Annexes to make certain information clearer and more transparent with the aim that investors will be better able to understand the documents. As an example, we are clarifying for all the Funds that a minimum proportion of 80% of their net assets will promote E/S Characteristics.

How do the changes impact the Sub-Funds?

The amendments do not impact the Funds’ status as Article 8 funds under SFDR and the Funds’ investment strategies will be unchanged. Additionally, the amendments will not affect the tracking error between the Funds’ performance and that of their indices.

Except for those Funds listed in Table E of section 3 above, the **Index methodology changes** section, there has been no change to portfolio composition or portfolio turnover as a result of these amendments.

What is the Effective Date of the changes?

Unless otherwise specified in this notice, the changes set out above will take place on or around 30 April 2025 (the “Effective Date”).

Will the names of other Company funds be changed to comply with the ESMA Guidelines?

We currently have no plans to change the names of other Company funds to meet the requirements of the ESMA guidelines.

PAB Exclusions

Paris-aligned Benchmarks (“PABs”) are a type of investment benchmark designed by the European Union to align investment portfolios with the objectives of the Paris Agreement on climate change. This global agreement aims to limit global warming to well below 2 degrees Celsius above pre-industrial levels and to pursue efforts to limit the temperature increase to 1.5 degrees Celsius.

Article 12(1)(a) to (g) of the Commission Delegated Regulation require PABs to apply the exclusions listed below.

| Excluded Activity | Details |
|-----------------------------------|--|
| Controversial weapons (a) | Will not invest in issuers involved in any activities related to controversial weapons, namely anti-personnel mines, cluster munitions, chemical weapons and biological weapons. |
| Tobacco (b) | Will not invest in issuers involved in the cultivation and production of tobacco. |
| UNGC and OECD (c) | Will not invest in issuers in violation of the United Nations Global Compact (UNGC) principles or the Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises. |
| Hard coal and lignite (d) | Will not invest in issuers that derive 1% or more of revenue from exploration, mining, extraction, distribution or refining of hard coal and lignite. |
| Oil fuels (e) | Will not invest in issuers that derive 10% or more of their revenues from the exploration, extraction, distribution or refining of oil fuels. |
| Gaseous fuels (f) | Will not invest in issuers that derive 50% or more of their revenues from the exploration, extraction, manufacturing or distribution of gaseous fuels. |
| Electricity generation (g) | Will not invest in issuers that derive 50% or more of their revenues from electricity generation with a GHG intensity of more than 100 g CO ₂ e/kWh. |
