

HSBC Global Investment Funds

GLOBAL EMERGING MARKETS ESG LOCAL DEBT

Marketing communication | Monthly report 30 June 2025 | Share class AC

Investment objective

The Fund aims to provide long term capital growth and income by investing in a portfolio of emerging market local currency bonds, foreign exchange forwards and other similar securities, while promoting environmental, social and governance (ESG) characteristics. The Fund qualifies under Article 8 of SFDR.

Investment strategy

The Fund is actively managed. The Fund will invest at least 80% of its assets in investment grade and non-investment grade rated bonds, and other similar securities, issued by governments, government related entities or companies of emerging markets, as well as currency forwards and non-deliverable forwards. These are issued by issuers meeting certain minimum ESG and E, and S and G scores and the consideration of lower carbon intensity criteria. Minimum ESG and E, and S and G scores and lower carbon intensities are based on specific measures such as: electricity produced by renewable energy sources and carbon emissions as provided by the Sustainable Accounting Standards Board. The Fund will invest in sustainable bonds such as: sustainability-linked bonds, transition bonds, social bonds and green bonds. The average maturity of the Fund is normally between 4 and 10 years. The Fund may invest up to 20% in onshore Chinese bonds, up to 10% in convertible bonds, up to 10% in other funds, may invest in bank deposits and money market instruments. The Fund's primary currency exposure is to emerging market currencies. See the Prospectus for a full description of the investment objectives and derivative usage.

Main risks

- The Fund's unit value can go up as well as down, and any capital invested in the Fund may be at risk.
- The Fund invests in bonds whose value generally falls when interest rates rise. This risk is typically greater the longer the maturity of a bond investment and the higher its credit quality. The issuers of certain bonds, could become unwilling or unable to make payments on their bonds and default. Bonds that are in default may become hard to sell or worthless.
- The Fund may invest in Emerging Markets, these markets are less established, and often more volatile, than developed markets and involve higher risks, particularly market, liquidity and currency risks.

MSCI ESG Score	ESG score	E	S	G
Fund	5.4	5.3	6.5	6.0
Reference benchmark	4.2	4.8	5.6	5.5

The MSCI ESG Key Issue Score is the numerical, weighted average of MSCI's E, S, and G pillar scores. A higher number indicates a more favourable ESG profile in the view of MSCI.

The weighted averages of the Key Issue Scores are aggregated and companies' scores are normalized by their industries. After any overrides are factored in, each company's Final Industry-Adjusted Score corresponds to a rating.

For more information, see MSCI ESG Ratings Methodology @ <https://www.msci.com/esg-and-climate-methodologies>

Risk Disclosure

- Derivatives may be used by the Fund, and these can behave unexpectedly. The pricing and volatility of many derivatives may diverge from strictly reflecting the pricing or volatility of their underlying reference(s), instrument or asset.
- Investment Leverage occurs when the economic exposure is greater than the amount invested, such as when derivatives are used. A Fund that employs leverage may experience greater gains and/or losses due to the amplification effect from a movement in the price of the reference source.
- Where overseas investments are held the rate of currency exchange may cause the value of such investments to go down as well as up.
- Further information on the potential risks can be found in the Key Information Document (KID) and/or the Prospectus or Offering Memorandum.

Index Disclaimer

Information has been obtained from sources believed to be reliable but J.P. Morgan does not warrant its completeness or accuracy. The Index is used with permission. The Index may not be copied, used, or distributed without J.P. Morgan's prior written approval. Copyright 2025, J.P. Morgan Chase & Co. All rights reserved.

Benchmark disclosure

The Investment Advisor will use its discretion to invest in securities not included in the reference benchmark based on active investment management strategies and specific investment opportunities. It is foreseen that a significant percentage of the Fund's investments will be components of the reference benchmark. However, their weightings may deviate materially from those of the reference benchmark. The deviation of the Fund's performance and underlying investments' weightings relative to the benchmark are monitored, but not constrained, to a defined range.
