

HSBC Global Investment Funds

GLOBAL HIGH INCOME BOND

Monthly report 31 May 2023 | Share class BD

Investment objective

The Fund aims to provide income by investing in a portfolio of higher yielding bonds, while promoting environmental, social and governance (ESG) characteristics. The Fund qualifies under Article 8 of SFDR.

Investment strategy

The Fund is actively managed. The Fund may invest in investment grade rated and high yield bonds, Asian and Emerging Market debt instruments and may invest in bonds issued by governments, government agencies in developed and emerging markets. The Fund's asset allocation is managed with regard to the following neutral positions: 25% USD Emerging Market bonds, 17.5% US based investment grade corporate bonds, 17.5% US based high yield bonds, 15% Euro denominated investment grade corporate bonds hedged to USD, 15% Euro denominated high yield bonds hedged to USD, 10% Global Securitised. The Fund includes the identification and analysis of a company's ESG Credentials as an integral part of the investment decision making process. The Fund will not invest in bonds issued by companies with involvement in specific excluded activities, such as, tobacco and controversial weapons. The Fund may invest up to 10% in onshore Chinese bonds, up to 10% in convertible bonds, up to 10% in contingent convertible securities and up to 20% in asset backed securities and mortgage-backed securities. See the Prospectus for a full description of the investment objectives and derivative usage.

Main risks

- The Fund's unit value can go up as well as down, and any capital invested in the Fund may be at risk.
- The Fund invests in bonds whose value generally falls when interest rates rise. This risk is typically greater the longer the maturity of a bond investment and the higher its credit quality. The issuers of certain bonds, could become unwilling or unable to make payments on their bonds and default. Bonds that are in default may become hard to sell or worthless.
- The Fund may invest in Emerging Markets, these markets are less established, and often more volatile, than developed markets and involve higher risks, particularly market, liquidity and currency risks.

Risk Disclosure

- Derivatives may be used by the Fund, and these can behave unexpectedly. The pricing and volatility of many derivatives may diverge from strictly reflecting the pricing or volatility of their underlying reference(s), instrument or asset.
- Investment Leverage occurs when the economic exposure is greater than the amount invested, such as when derivatives are used. A Fund that employs leverage may experience greater gains and/or losses due to the amplification effect from a movement in the price of the reference source.
- Further information on the potential risks can be found in the Key Information Document (KID) and/or the Prospectus or Offering Memorandum.
