What is this product?

Type

The Fund is an investment company incorporated as a société anonyme qualifying as a Société d'Investissement à Capital Variable. The Fund's value is dependent on the performance of the underlying assets and may go up as well as down. Any capital invested in the Fund may be at risk.

Objectives and Investment Policy

Investment Objective:

The Fund aims to provide long term capital growth and income by investing in a portfolio of US Dollar denominated high yield bonds, including non-investment grade rated bonds and other higher yielding securities.

Investment Policy:

In normal market conditions, the Fund will invest at least 90% of its assets in US dollar denominated non-investment grade rated and other high yield bonds and similar securities issued by companies that are based in or carry out the larger part of their business in developed markets, or securities issued by governments, government agencies or supranational bodies in any country including emerging markets. At least 70% of the Fund's assets will be invested in securities issued by companies that are based in the United States of America (USA), issuers guaranteed by the US government or US government agencies.

Issuers considered for inclusion within the Fund's portfolio will be subject to excluded activities in accordance with HSBC Asset Management's Responsible Investment Policies, which may change from time to time. Please refer to the Prospectus for further details on excluded activities.

The Fund invests in bonds which are mostly denominated in US dollars (USD). At times the Fund may also invest in bonds denominated in other developed market currencies. Normally, investments in non-USD bonds will be limited to 10% of the Fund's assets and exposure to other developed market currencies will be hedged back into USD.

The Fund may invest up to 10% in developed market currencies other than US dollars.

The Fund may also invest up to 20% of its assets in bonds and similar securities issued in emerging markets.

The Fund may invest up to 15% of its assets in contingent convertible securities.

The Fund may invest in asset-backed securities (ABS) and mortgage-backed securities (MBS) through investment in other funds.

The Fund may invest up to 10% of its assets in other funds, including HSBC funds and may invest in bank deposits and money market instruments for treasury purposes.

The Fund may invest up to 10% of its assets in securities issued by or guaranteed by any single government issuer with a credit rating below investment grade.

The Fund may hold shares (and securities similar to shares) received as a result of or in connection with a corporate action affecting existing portfolio holdings.

The Fund may also invest in derivatives. The Fund may use them for hedging, cashflow management and investment purposes. Derivatives will not be used extensively for investment purposes. Derivatives may also be embedded in other instruments used by the Fund.

- ◆ The Fund may enter into securities lending transactions for up to 29% of its assets. However, this is not expected to exceed 25%.
- ◆ Currency hedging is carried out in respect of the share class. The aim is to protect against exchange rate fluctuations between the share class currency AUD and the base currency of the Fund USD.
- ◆ Income is distributed.
- ◆ You may sell your investment on most working days.
- ◆ The Fund is actively managed and does not track a benchmark. The Fund has an internal or external target to a reference benchmark, ICE BofA US High Yield Constrained (net of transaction costs).
- ◆ The Investment Advisor will use its discretion to invest in securities not included in the reference benchmark based on active investment management strategies and specific investment opportunities. It is foreseen that a significant percentage of the Fund's investments will be components of the reference benchmark. However, their weightings may deviate materially from those of the reference benchmark.
- ◆ The deviation of the Fund's performance relative to the benchmark is also monitored, but not constrained, to a defined range.

Intended Retail Investor

The Fund may be suitable for investors with a long term investment horizon and is intended for investors aiming for exposure to asset classes which may be subject to moderately high volatility. The Fund may be suitable for investors looking for an investment to complement an existing core portfolio or as a standalone investment to gain exposure to a specific asset class.

An investment in the Fund is only suitable for investors who are capable of evaluating the risks and merits of such an investment, and who have sufficient resources to bear any loss as the Fund is not guaranteed and they may receive back less than the amount invested. The Fund is designed for use as part of a diversified investment portfolio. Prospective investors should consult with their financial advisor before making an investment.

Term:

The Fund does not have a maturity date.

The PRIIP Manufacturer cannot terminate the Fund unilaterally. The Board of Directors may furthermore decide to liquidate the Fund in certain circumstances set out in the prospectus and articles of incorporation of the Fund.

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended Holding Period: 5 Years Investment of AUD 10,000		If you exit after 1 year	If you exit after 5 years
Minimum	The Fund is not covered by an investor compensation or guarantee scheme, you may lose some or all of the amount invested.		
Stress Scenario	What you might get back after costs	AUD4,740	AUD6,590
	Average return each year	-52.56 %	-7.99 %
Unfavourable Scenario	What you might get back after costs	AUD7,910	AUD9,420
	Average return each year	-20.88 %	-1.19 %
Moderate Scenario	What you might get back after costs	AUD10,180	AUD10,510
	Average return each year	1.77 %	1.01 %
Favourable Scenario	What you might get back after costs	AUD11,970	AUD14,750
	Average return each year	19.66 %	8.08 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. The unfavourable scenario occurred for an investment between December 2021 and February 2025. The moderate scenario occurred for an investment between January 2019 and January 2024. The favourable scenario occurred for an investment between January 2016 and January 2021. A suitable benchmark was used where the Fund had insufficient history.

What happens if HSBC Investment Funds (Luxembourg) S.A. is unable to pay out?

The Fund's ability to pay out would not be affected by the default of HSBC Investment Funds (Luxembourg) S.A.. The Fund's assets are kept safe by the Depositary Bank and are segregated from the assets of other Funds. This means that the holdings of one Fund are kept separate from the holdings of the other Funds and your investment in the Fund cannot be used to pay the liabilities of any other Fund. There is a potential liability risk for the Depositary if the assets of the Fund are lost. The Depositary is liable in case of its negligent or intentional failure to properly fulfil its obligations pursuant to the 2010 Law.

In the event of a bankruptcy or insolvency of the Depositary Bank or other service provider, investors could experience delays (for example, delays in the processing of subscriptions, conversions and redemption of shares) or other disruptions and there may be a risk of default. The Fund is not covered by an investor compensation or guarantee scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- ◆ In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- ◆ AUD 10,000 is invested.

Recommended Holding Period: 5 Years	If you exit after 1 year	If you exit after 5 years
Investment of AUD 10,000		
Total Costs	448 AUD	1,105 AUD
Annual cost impact % *	4.5%	2.0% each year

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.05% before costs and 1.01% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

These figures include the maximum distribution fee that the person selling you the product may charge up to 3.10%. This person will inform you of the actual distribution fee.

Composition of costs

One-off costs upon entry or exit	If you exit after 1 year
Entry costs	Up to 3.10% of the amount you pay in when entering this investment. In some cases you may pay less. You can obtain the actual charges from your financial adviser.
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.
Ongoing costs taken each year	
Management fees and other administrative or operating costs	1.36% of the value of your investment per year. This figure is an estimate due to a change of fee structure.
Transaction costs	0.00%* of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.
Incidental costs taken under specific conditions	
Performance Fees	There is no performance fee for this product.

A conversion charge of up to 1.00% of the Net Asset Value of the Shares which are being converted may be payable to the relevant distributor.
