**This document contains important information about your investment in the
HSBC Global Investment Funds - Global Emerging Markets ESG Bond (the "Sub-Fund")**

Dear Shareholder,

We are writing to inform you of some changes we are making to the regulatory disclosures for the above Sub-Fund. Our records show that you hold Shares in the Sub-Fund which is classified as an Article 8 under the Sustainable Finance Disclosure Regulation ("SFDR").

The Sub-Fund has a commitment to invest a minimum of 10% in sustainable investments (as defined in SFDR). This commitment is set out in the Sub-Fund's pre-contractual disclosure document ("PCD") which forms part of the prospectus of the Company (the "Prospectus"). However, in the latest PCD, which formed part of the Prospectus dated 6 November 2023, the minimum percentage commitment to sustainable investments (the "Minimum Commitment") for the Sub-Fund was incorrectly stated at 25%.

We will be updating our documentation to correct this error and to state the correct the Minimum Commitment to 10%. This correction will be reflected in the next PCD, as contained in the Prospectus, and will be effective from the date of the next visa-stamped Prospectus. This is expected to be on or around 31 January 2024.

Please note that the management of this Sub-Fund, the investment objective and investment process will not change as a result of this correction. We also take this opportunity to confirm to investors that the sustainable investments held by this Sub-Fund have consistently been above the 10% minimum commitment since this Sub-Fund has been classified as an Article 8 under SFDR.
