What is this product?

Type

The Fund is an investment company incorporated as a société anonyme qualifying as a Société d'Investissement à Capital Variable. The Fund's value is dependent on the performance of the underlying assets and may go up as well as down. Any capital invested in the Fund may be at risk.

Objectives and Investment Policy

Investment Objective:

The Fund aims to make a positive environmental, social and governance (ESG) impact by investing in a concentrated portfolio of companies that actively contribute to the transition to a more circular global economy, based on the principles of designing out waste and pollution, keeping products and materials in use and regenerating natural systems, while also aiming to provide long term capital growth and income.

The Fund's ESG rating is calculated as a weighted average of the ESG scores given to the companies of the Fund's investments, and it aims to be higher than the weighted average of the constituents of the reference benchmark after eliminating at least 20% of the lowest ESG scored companies from its reference benchmark.

The Fund promotes ESG Characteristics within the meaning of Article 9 of SFDR. More information on HSBC Global Asset Management's responsible investing policies is available at www.assetmanagement.hsbc.com/about-us/responsible-investing.

Investment Policy:

In normal market conditions, in-line with a thematic approach, the Fund will invest at least of 90% of its assets in shares (or securities similar to shares) of companies with exposure to circular economy themes, based in any country, including both developed markets and emerging markets. Circular economy themes may include production and provision of sustainable resources, circular products, circular economy technologies and services, and recovery activities. They are proprietary to HSBC, determined in reference to United Nations Sustainable Development Goals.

The Fund will restrict investment in companies with limited exposure to certain restricted activities, such as: revenue exposure of more than 5% to unconventional oil and gas extraction and nuclear energy; conventional oil and gas extraction companies that derive less than 40% of revenues from activities related to natural gas extraction or renewable energy sources; and electricity utility companies that are not setting and meeting specific milestones for transitioning towards the goals of the Paris Climate Agreement.

Companies considered for inclusion within the Fund's portfolio will be subject to excluded activities in accordance with HSBC Asset Management's Responsible Investment Policies and the Paris Aligned Benchmark exclusions, which may change from time to time. Please refer to the Prospectus for more details on ESG scores, restricted activities and excluded activities.

Circular Economy Themes excluded activities and the need for enhanced due diligence may be identified and analysed using both HSBC's proprietary ESG Materiality Framework as well as research & information provided by financial and non-financial data providers.

The Fund's final portfolio is constructed from the eligible investment universe based on a combination of ESG analysis as described above, together with fundamental qualitative company analysis.

The Fund may invest up to 20% in China A and China B-shares. For China A-shares, up to 10% through the Shanghai-Hong Kong Stock Connect and the Shenzhen-Hong Kong Stock Connect, up to 10% in China A shares Access Products (CAAPs) and up to 10% in CAAPs issued by any single issuer.

The Fund may invest up to 10% of its assets in Real Estate Investment Trusts (REITs), may invest in bank deposits and money market instruments, and up to 10% in other funds (which will qualify under Article 9 of SFDR).

The Fund may also invest in derivatives and use them for hedging, cash flow management and efficient portfolio management purposes. Derivatives may also be embedded in other instruments used by the Fund.

- ◆ The Fund may enter into securities lending transactions for up to 29% of its assets. However, this is not expected to exceed 25%.
- ◆ The reference currency of the Fund is USD. The reference currency of this share class is EUR.
- ◆ Income is reinvested.
- ◆ You may sell your investment on most working days.
- ◆ The Fund is actively managed and does not track a benchmark. The reference benchmark for the Fund is MSCI All Country World Net Index.
- ◆ The Investment Advisor will use its discretion to invest in securities not included in the reference benchmark based on active investment management strategies and specific investment opportunities. It is foreseen that a material percentage of the Fund's investments will be components of the reference benchmark. However, their weightings may deviate materially from those of the reference benchmark.

Intended Retail Investor

The Fund may be suitable for investors with a long term investment horizon and is intended for investors aiming for exposure to asset classes which may be subject to moderately high volatility. The Fund may be suitable for investors looking for an investment to complement an existing core portfolio or as a standalone investment to gain exposure to a specific asset class.

An investment in the Fund is only suitable for investors who are capable of evaluating the risks and merits of such an investment, and who have sufficient resources to bear any loss as the Fund is not guaranteed and they may receive back less than the amount invested. The Fund is designed for use as part of a diversified investment portfolio. Prospective investors should consult with their financial advisor before making an investment.

Term:

The Fund does not have a maturity date.

The PRIIP Manufacturer cannot terminate the Fund unilaterally. The Board of Directors may furthermore decide to liquidate the Fund in certain circumstances set out in the prospectus and articles of incorporation of the Fund.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. The unfavourable scenario occurred for an investment between March 2015 and March 2020. The moderate scenario occurred for an investment between April 2017 and April 2022. The favourable scenario occurred for an investment between October 2016 and October 2021. A suitable benchmark was used where the Fund had insufficient history.

What happens if HSBC Investment Funds (Luxembourg) S.A. is unable to pay out?

The Fund's ability to pay out would not be affected by the default of HSBC Investment Funds (Luxembourg) S.A.. The Fund's assets are kept safe by the Depositary Bank and are segregated from the assets of other Funds. This means that the holdings of one Fund are kept separate from the holdings of the other Funds and your investment in the Fund cannot be used to pay the liabilities of any other Fund. There is a potential liability risk for the Depositary if the assets of the Fund are lost. The Depositary is liable in case of its negligent or intentional failure to properly fulfil its obligations pursuant to the 2010 Law.

In the event of a bankruptcy or insolvency of the Depositary Bank or other service provider, investors could experience delays (for example, delays in the processing of subscriptions, conversions and redemption of shares) or other disruptions and there may be a risk of default. The Fund is not covered by an investor compensation or guarantee scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- ◆ In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- ◆ EUR 10,000 is invested.

Recommended Holding Period: 5 Years		If you exit after 1 year	If you exit after 5 years
Investment of EUR 10,000			
Total Costs		698 EUR	2,480 EUR
Annual cost impact % *		7.0%	3.3% each year

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.33% before costs and 9.03% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

These figures include the maximum distribution fee that the person selling you the product may charge up to 5.00%. This person will inform you of the actual distribution fee.
