What is this product?

Type

The Fund is an investment company incorporated as a société anonyme qualifying as a Société d'Investissement à Capital Variable. The Fund's value is dependent on the performance of the underlying assets and may go up as well as down. Any capital invested in the Fund may be at risk.

Objectives and Investment Policy

Investment Objective:

The Fund aims to provide capital growth and income by investing in a diversified portfolio of bonds with an expected average duration of between 1 and 3 years and an average credit rating of investment grade, that seeks a higher environmental, social and governance (ESG) score and lower carbon intensity, than the reference benchmark, while promoting ESG characteristics.

The Fund promotes ESG characteristics within the meaning of Article 8 of SFDR. More information on HSBC Global Asset Management's responsible investing policies is available at www.assetmanagement.hsbc.com/about-us/responsible-investing.

Investment Policy:

In normal market conditions, the Fund aims to invest at least 70% of its assets in short duration investment grade, non-investment grade and unrated bonds, and similar securities issued or guaranteed by governments, government-related entities, supranational entities or issued by companies. These bonds are issued by issuers meeting certain ESG score and lower carbon intensity criteria (ESG and Lower Carbon Criteria).

The ESG and Lower Carbon criteria, together with fundamental qualitative company analysis, are used to determine the Fund's investible universe; which includes issuers following good ESG practices and sustainable bonds. Companies and/or issuers considered for inclusion within the Fund's portfolio will be subject to excluded activities in accordance with HSBC Asset Management's Responsible Investment Policies, which may change from time to time. Please refer to the Prospectus for more details on ESG and Lower Carbon criteria and excluded activities.

ESG and Lower Carbon criteria, excluded activities and the need for enhanced due diligence will be identified and analysed using both HSBC's proprietary ESG Materiality Framework as well as research & information provided by financial and non-financial data providers.

The Investment Adviser aims to construct a portfolio with a higher ESG score, calculated as a weighted average of the ESG scores of the Fund's investments against the weighted average ESG score of the issuers of the constituents of the reference benchmark.

The Fund may also invest up to 10% of its assets in contingent convertible securities. However, this exposure is not expected to exceed 5%.

The Fund may invest up to 30% of its assets in bonds issued in emerging markets, up to 20% in asset backed securities and mortgage-backed securities, up to 10% in convertible bonds (excluding contingent convertible securities), up to 10% in other funds, up to 10% in bonds and other similar securities which have a maturity longer than five years, and may invest in bank deposits and money market instruments.

The Fund may hold shares (and securities similar to shares) received as a result of or in connection with a corporate action affecting existing portfolio holdings.

The Fund's primary currency exposure is to the US Dollar and will normally hedge currency exposures into US Dollar. The Fund may also have exposure up to 30% of its assets to non-US Dollar currencies.

The Fund may also invest in derivatives and use them for hedging and efficient portfolio management purpose. Derivatives will not be used extensively for investment purposes. Derivatives may also be embedded in other instruments used by the Fund.

- ◆ The Fund may enter into securities lending transactions for up to 29% of its assets. However, this is not expected to exceed 25%.
- ◆ Currency hedging is carried out in respect of the share class. The aim is to protect against exchange rate fluctuations between the share class currency EUR and the base currency of the Fund USD.
- ◆ Income is distributed.
- ◆ You may sell your investment on most working days.
- ◆ The Fund is actively managed and does not track a benchmark. The Fund has an internal or external target to a reference benchmark, 50% ICE BofA 1-5 Year BBB US Corporate Index|50% ICE BofA 1-5 Year BB US High Yield Index.
- ◆ The Investment Advisor will use its discretion to invest in securities not included in the reference benchmark based on active investment management strategies and specific investment opportunities. It is foreseen that a significant percentage of the Fund's investments will be components of the reference benchmark. However, their weightings may deviate materially from those of the reference benchmark.

Intended Retail Investor

The Fund may be suitable for investors with a short term investment horizon and is intended for investors aiming for a low expectation of capital loss and income levels expected to be regular and stable. The Fund may be suitable for investors looking for an alternative to cash deposits or temporary cash investments.

An investment in the Fund is only suitable for investors who are capable of evaluating the risks and merits of such an investment, and who have sufficient resources to bear any loss as the Fund is not guaranteed and they may receive back less than the amount invested. The Fund is designed for use as part of a diversified investment portfolio. Prospective investors should consult with their financial advisor before making an investment.

Term:

The Fund does not have a maturity date.

The PRIP Manufacturer cannot terminate the Fund unilaterally. The Board of Directors may furthermore decide to liquidate the Fund in certain circumstances set out in the prospectus and articles of incorporation of the Fund.

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low, and poor market conditions are unlikely to impact our capacity to pay you.

Additional risks not included in the Summary Risk Indicator (SRI) include: Liquidity, Counterparty, Operational, Investment Leverage and Exchange Rate Risk. Please refer to the prospectus for other risks.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

| Recommended Holding Period: 1 Year | | If you exit after 1 year |
|------------------------------------|---|--------------------------|
| Investment of EUR 10,000 | | |
| Minimum | The Fund is not covered by an investor compensation or guarantee scheme, you may lose some or all of the amount invested. | |
| Stress Scenarios | What you might get back | EUR 6,950 |
| | Percentage return | -30.47 % |
| Unfavourable Scenario | What you might get back | EUR 8,580 |
| | Percentage return | -14.17 % |
| Moderate Scenario | What you might get back | EUR 10,150 |
| | Percentage return | 1.47 % |
| Favourable Scenario | What you might get back | EUR 12,770 |
| | Percentage return | 27.67 % |

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. The unfavourable scenario occurred for an investment between March 2017 and March 2018. The moderate scenario occurred for an investment between June 2019 and June 2020. The favourable scenario occurred for an investment between March 2014 and March 2015. A suitable benchmark was used where the Fund had insufficient history.

What happens if HSBC Investment Funds (Luxembourg) S.A. is unable to pay out?

The Fund's ability to pay out would not be affected by the default of HSBC Investment Funds (Luxembourg) S.A.. The Fund's assets are kept safe by the Depositary Bank and are segregated from the assets of other Funds. This means that the holdings of one Fund are kept separate from the holdings of the other Funds and your investment in the Fund cannot be used to pay the liabilities of any other Fund. There is a potential liability risk for the Depositary if the assets of the Fund are lost. The Depositary is liable in case of its negligent or intentional failure to properly fulfil its obligations pursuant to the 2010 Law.

In the event of a bankruptcy or insolvency of the Depositary Bank or other service provider, investors could experience delays (for example, delays in the processing of subscriptions, conversions and redemption of shares) or other disruptions and there may be a risk of default. The Fund is not covered by an investor compensation or guarantee scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- ◆ In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- ◆ EUR 10,000 is invested.

| Recommended Holding Period: 1 Year | | If you exit after 1 Year |
|------------------------------------|--|--------------------------|
| Investment of EUR 10,000 | | |
| Total Costs | | 415 EUR |
| Annual cost impact % * | | 4.2% each year |

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.62% before costs and 1.47% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

These figures include the maximum distribution fee that the person selling you the product may charge up to 3.10%. This person will inform you of the actual distribution fee.

Composition of costs

| One-off costs upon entry or exit | | If you exit after 1 year |
|---|---|--------------------------|
